

DeLonghi Radiator Colours

Radiator Colours

Typically, radiators come in the factory standard white but today you have a huge choice of different coloured radiators to choose from.

All DeLonghi radiators are available for custom colouring from their selected radiator colour range (RAL Colours) with a range of finishes (gloss, matte, rough +30%, and special +45%) for you to select from.

So, whether you want your radiators to blend in or stand out in your home having them coloured could be the best option for you.
